Submitting FCC KDB Inquiries and TCB Web Site

Tim Dwyer

- KDB Database
- Two areas (1) Public Access (2) TCB Access only
- Public Access inquiries normally request or provide FCC interpretation or clarification of rules. They are normally not specific to a particular FCCID, filing or device.
- Some KDB's are the result of questions submitted in an inquiry by a lab or applicant like KDB 449343
- Others provide reference to FCC "KDB" publications like KDB 935210 for boosters and are created by FCC.
- All KDB's are assigned six digit numbers and can be accessed by the number if you know it.

- Text search capability allows finding information by entering a word or phrase to search for relevant information.
- Text searches return KDB's that contain all words entered in the SEARCH field. The words may appear together or may be distributed in the document.
- For this reason, it is important to choose the search word or words carefully. It often will take several search attempts to locate the information you are looking for.
- Try to keep the search terms short two or three words to start. Don't enter an entire sentence – it probably won't return anything.
- Be patient, use imagination, keep trying.
- Try to think of terms that are likely to appear in the answer to your question.

- Ask specific questions.
- Provide supporting information if necessary, but keep supporting information relevant to the question.
- Submit document attachments if needed and relevant.
- Avoid submitting very large documents. It may be more productive to extract specific pages from large documents.
- KDB inquiries should be submitted only after an exhaustive search of the FCC rules, KDB, and other resources. It should not be used as a training resource, but as a means of providing clarification or answering questions not already addressed elsewhere.

Office of Engineering and Technology Laboratory Division Knowledge Database (KDB)

Welcome to the OET Laboratory Division Knowledge Database (KDB). The FCC Office of Engineering and Technology (OET) publishes equipment authorization procedures and measurement guidance in the form of FCC Public Notices and Knowledge Database (KDB) publications. The staff guidance provided in the KDB is intended to assist the public in following Commission requirements and does not constitute rules. Accordingly, the guidance is not binding on the Commission and will not prevent the Commission from making a different decision in any matter that comes to its attention for resolution.

The Basic KDB Search is a full text search and the Advanced KDB Search allows for input of multiple search criteria. The KDB Publication Number search is a quick search for a specific publication. We hope that your visit is both timely and useful.

Page Index: | Go to... |

Stay updated on newly published guidance and frequently asked questions by adding this RSS feed to your reader.

Publication Searches:

Basic KDB Search: Enter a text string in the field below. This search scans the Knowledge Database for any publications that include the text entered. Alternative search results can be obtained by using the syntax described by [clicking here](#).

Text search:

Advanced KDB Search: Search for publications that meet one or more identified criteria.

Major Guidance Publications: View publications associated with major guidance categories.

KDB Publication Number Search: Search for a specific publication by entering the publication number:

Publication Number:

Didn't find a conclusive answer? [Submit an Inquiry](#)

Publications:

Recent KDB Publications:

Publication Number	Question	Answer
935210	What is the Commission guidance for the evaluation of Signal Boosters?	FCC Report and Order (FCC 10-21) introduces a new regulatory framework for signal boosters, including the introduction of a Network Protection Standard (NPS) that specifies the technical and operational requirements necessary to minimize the potential for...

Recent Guidelines and Interpretations:

Posted on Apr 28 2009 3:02PM:
 Updates will be forthcoming.

Important Notes:

Inquiry Responses and Publications: FCC staff publications and replies to inquiries from the KDB are based on one or more of the following criteria:

1. Responses that the FCC staff have given to prior inquiries.
2. Staff guidance of the Commission's rules and policies.
3. Prior staff practices.

The KDB publications are not intended to constitute staff guidance, and do not necessarily represent the only acceptable methods for service...

Submit Your Question to the OET Laboratory Staff

Please use the form below to submit an inquiry to the FCC Office of Engineering and Technology (OET) Laboratory Division. It is important to understand that the staff guidance provided in the KDB is intended to assist the public in following Commission requirements and does not constitute rules. Accordingly, the guidance is not binding on the Commission and will not prevent the Commission from making a different decision in any matter that comes to its attention for resolution.

TCB Filing Options

[Form 731 Application](#) Start a new application

[Add Form 731 Attachments](#) Add exhibits to an application already on file.

[Submit Correspondence](#) Reply to OET Correspondence (RT)

[Submit Surveillance Report](#)

[Modify Grant](#) Make changes to a grant already issued within 30 days.

[Complete Unfinished Form 731](#) Continue with an application already started but not granted.

[Reprint Grant](#)

TCB Report Options

[FCC ID Search](#) Quick Search to see if an FCCID already exists.

[Pending Application Status](#) Status of an application submitted but not yet granted. Normally used during a pending PBA.

[List/Modify Exhibits](#) List of exhibits already submitted for an application. Shows permanent confidentiality, short-term confidentiality, and allows supersede. This shows only a list. It does not provide viewing of the exhibits.

[Short-Term Confidential Exhibit Maintenance](#) To release or extend Short Term

[Confirmation Number Search By FCC ID](#) Find Confirmation Numbers for an FCCID.

[Applications Awaiting Info/Samples](#) List of Applications pending submission of additional information.

[Incomplete Applications](#) List of applications started but not yet granted

[Applications Missing Required Exhibits](#) List of applications with missing exhibits.

[Equipment Class/Rule Part/Scope List](#) List of Scopes with Rule Parts and Equipment Codes allowed in each scope and rule part.

[TCB Accreditation Attachments](#)

[Key Employee List](#) List of TCB Employees and qualifications

[Grantee Search](#) Same as Grantee Search in Authorization Search page.

[KDB Pending Inquiry Report](#) KDB's (including PBA) that have been submitted and not yet finalized or closed.

[Grants per year](#) List of grants issued by the TCB for the current and preceding year. Exportable CSV, Excel, XML, PDF.

Miscellaneous

[Submit a KDB Inquiry](#) Initial submission of a TCB KDB Inquiry, including PBA

[Reply to a KDB Inquiry Response](#) Respond to or provide additional information for a KDB already submitted.

[Change Password](#)

[TCB Exclusion List](#) Link to KDB 628591
