1. FCC就商务部对某些联网车辆技术的认定征求公众意见

FCC Seeks Public Input on Commerce Department Determination
THE PUBLIC SAFETY AND HOMELAND SECURITY BUREAU AND THE OFFICE OF ENGINEERING AND TECHNOLOGY SEEK PUBLIC INPUT ON COMMERCE DEPARTMENT DETERMINATION REGARDING CERTAIN CONNECTED VEHICLE TECHNOLOGIES
WC Docket No. 18-89, ET Docket No. 21-232, EA Docket No. 21-233
Files: Public Notice: PDF

2. FCC正寻求有关开展卫星通信的进一步意见

Satellite Spectrum Abundance
Abstract: In this document, the Federal Communications Commission (Commission) seeks further comment on ways to use the 12.7-13.25 GHz band and the 42.0-42.5 GHz band more efficiently and intensively by satellite communications and seeks comment on proposals to make additional spectrum resources available for satellite communications in the 51.4-52.4 GHz band and within certain W-band frequency ranges (92.0-94.0 GHz, 94.1-100 GHz, 102.0-109.5 GHz, and 111.8-114.25 GHz).
PDF **Pages 27499-27514** ***(16 pages)***
DATES: Comments are due July 28, 2025. Reply comments are due August 26, 2025.

3. 降低37GHz频段及在移动无线电服务中使用24GHz以上频谱频段

LOWER 37 GHZ BAND AND USE OF SPECTRUM BANDS ABOVE 24 GHZ FOR MOBILE RADIO SERVICE
ERRATUM - LOWER 37 GHZ BAND; USE OF SPECTRUM BANDS ABOVE 24 GHZ FOR MOBILE RADIO SERVICES. Issued an Erratum correcting a Report and Order, Sixth Report and Order, and Further Notice of Proposed Rulemaking (Order and FNPRM), FCC 25-24, released on April 29, 2025. (Dkt No 24-243 14-177). Action by: the Acting Chief, Wireless Telecommunications Bureau, and the Managing Director. by ERRATUM. OMD WTB. DOC-411952A1.pdf

4. 以下信息已经公布在Federal Register

ASIAN TOUCH SPA, INC.; WEST PALM BEACH, FLORIDA. Notice of Unlicensed Operation (NOUO) and Notification of Harmful Interference issued to Asian Touch Spa for operating a Bluetooth speaker that caused interference to AT&T's FirstNet cellular network. . Action by: Regional Director, Field Division, Enforcement Bureau. Adopted: 2025-06-12 by Notice. EB. DOC-411957A1.pdf

5. RSS-HAC修正案2，过渡期延长至2028年1月1日

ISED Canada RSS-HAC Amendment 2, Transition Extension

Effective immediately, Innovation, Science and Economic Development Canada (ISED) is extending the compliance date for cellphone device manufacturers for hearing aid compatibility and volume control requirements from January 1st, 2026 until **January 1st, 2028**.

Notice 2025-DRS0002

6. ISED通知：Family Certification 认证单个字段中不再接受多个产品型号名称（PMN）

Family Certification - Multiple Product Marketing Names (PMNs) in single field no longer accepted

ISED NOTICE

Family Application required for multiple product versions (multiple HVIN and/or PMN).

Effective on June 30, 2025, ISED will no longer permit applications containing multiple PMNs in a single field, separated by commas, slashes, dashes, or other characters.

Applications containing more than one PMN are considered family applications and shall be submitted as such. If several PMNs exist for a single HVIN, this is considered a family certification. Submitting a single product certification is not adequate if more than one PMN exists for a certification. Service fees were revised in 2023; There is no longer a fee associated with each model (i.e. product version) within a family. The new equipment registration fees are set to a fixed amount per application, regardless of the number of models (product versions) included.

Section 9.3 of RSP-100 provides a detailed definition as well as the requirements applicable to new family product certification. Section 9.3.1 a. explains that each product version under a family certification shall have at least one unique field. This includes the PMN. Two unique PMNs automatically warrants the need of a family certification.

Applications submitted on or after June 30, 2025 will require to be family applications if there is more than one PMN.

Under a new family certification application, if more than one PMN exists, each PMN shall be listed individually under different product versions (PVs).

Example 1: Family application with 1 PMN and 5 HVINs:

First PV = HVIN 1 + PMN 1
Second PV = HVIN 2 + PMN 1
Third PV = HVIN 3 + PMN 1
Fourth PV = HVIN 4 + PMN 1
Fifth PV = HVIN 5 + PMN 1

Example 2: Family application with 5 PMNs and 1 HVIN:

First PV = HVIN 1 + PMN 1
Second PV = HVIN 1 + PMN 2
Third PV = HVIN 1 + PMN 3
Fourth PV = HVIN 1 + PMN 4
Fifth PV = HVIN 1 + PMN 5

Note: Adding additional unique combinations of HVIN & PMN (Product Versions) can be done by adding models on the "List of Radio Models" page in SpectraWeb.

Any applications submitted on or after June 30, 2025 (single or family certification application) containing more than one PMN in a single field (separated by commas, slashes, dashes, spaces, etc.) will be automatically returned to the Certification Body for correction.

Important note: New Single applications containing more than one PMN in a single field will not only be returned to the CB, but they will also be refunded since the CB will be required to create a new family application.
